Information Literacy Skills:

- Identify appropriate information discovery tools
- Use features of a discovery tool to identify items on your subject (use subject searching functions, limit to full-text, peer-reviewed literature, etc.)
- Identify the elements of a bibliographic citation
- Manipulate the found resource (print, download, cite, email, etc.)

**Phlebotomy or Blood collection and preservation or Blood banks or Blood donation**

1. From GRCC’s Library website, select [Subject Guides] and then the [Workforce Training Healthcare Subject Guide.] [http://subjectguides.grcc.edu/wfhealth]

2. From the [Databases] box, select [Nursing Resource Center].

3. Use the [Subject Guide] on the toolbar and search for ONE of the subjects above. Circle the topic you chose and report how many hits / results found: __________

4. Use the [Subdivisions] to choose a more specific topic within the topic you chose – or – just click on the subject heading to start the search.

5. Your tabbed results screen appears with tabs containing matches highlighted. Select the [Journals] tab. Limit your results to [to documents with full-text]. How many full-text journal articles are there? ______

6. Select one **full-text academic journal** article. Do **not** choose a book review, brief article, editorial, OR letter to the editor. Identify the bibliographic elements of the article you chose:

   Author: ____________________________________________________________

   Article Title: _______________________________________________________

   Publication (Journal) Title: ___________________________________________

   Volume #: _____ Issue #: _____ Date: _______________ Page: ______ Word Count: ______

Initial here ______ after emailing the article to yourself with an APA citation.

CEGH Phlebotomy Articles BNS 9/29/2014
7. Now, go back to the [Workforce Training Healthcare Subject Guide]. http://subjectguides.grcc.edu/wfhealth This time, select the database [CREDO Medicine]. Search for a DEFINITION for a phlebotomy-related term that you encountered in class OR in the article in #6. DO NOT choose a “Topic Page.”

Term chosen: ___________________________ How many hits/matches? ________

Title of the entry in the Reference Book: ______________________________________

Title of the Reference Book: _________________________________________________

Click into the entry and read it. Then, initial here ______ after emailing the definition to yourself with an APA citation.
